The following guidelines illustrate the preferred layout and content for patent applications.

These guidelines are suggested for the applicant's use.

#### Arrangement of the Specification

The following order or arrangement is preferred in framing the specification and, except for the reference to the drawings, each of the lettered items should appear in upper case, without underling or bold type, as section headings. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) Title of the Invention.
- (b) Cross-Reference to Related Applications.
- (c) Statement Regarding Federally Sponsored Research or Development.
- (d) Reference to a "Sequence Listing," a table, or a computer program listing appendix submitted on compact disc (see 37 CFR 1.52(e)(5)).
- (e) Background of the Invention.
  - 1. Field of the Invention.
  - 2. Description of the Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) Brief Summary of the Invention.
- (g) Brief Description of the Several Views of the Drawing(s).
- (h) Detailed Description of the Invention.
- (i) Claim or Claims (commencing on a separate sheet).
- (j) Abstract of the Disclosure (commencing on a separate sheet).
- (k) Drawings.
- (l) Sequence Listing, if on paper (see 37 CFR 1.821-1.825).

Claims 1-7 are allowed.

Art Unit: 1761

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 14-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dunn et al in view of Asher et al for the reasons set forth in rejecting the claims in the last Office action (Paper No. 6).

Dunn et al disclose a starch based texturizing agent and process for preparing comprising a combination of starch, gums, and whey protein (see entire document, especially claims 1, 5, 9, and 25).

The claims differ as to the specific use of whey protein concentrate.

Asher et al disclose a texturizing agent and process of preparing comprising the use of whey protein concentrate.

It would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to use whey protein concentrate as taught by Asher et al in that of Dunn et al because whey protein concentrate is a conventional source of whey protein.

Applicant's arguments filed February 19, 2003 have been fully considered but they are not persuasive.

Art Unit: 1761

Applicant argues that the heating process of Dunn et al differs from that of the claimed invention.

Claims 8 and 14-18 are product claims and not process claims. Dunn teaches a combination of starch, gums, and whey protein, and Asher teaches the use of a whey protein concentrate. Both references are directed to texturizing agents and all of the claimed components are taught.

Applicant argues that the claimed invention provides a means for reducing or completely preventing uncontrolled protein agglomeration in protein-containing dairy products.

Applicant does not claim these limitations nor has Applicant provided a showing of unexpected results.

In the absence of unexpected results, it is not seen how claims 8 and 14-18 differ from the teachings of the prior art. Applicant's claims are drawn to a combination of known components which produces expected results, see *In re Kerkhoven* 205 USPQ 1069 and *In re Gershon* 152 USPQ 602.

All of the claim limitations and arguments have been considered.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE

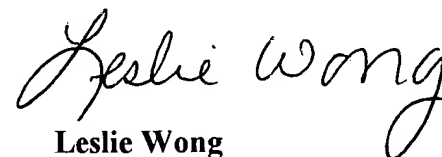

Art Unit: 1761

EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
